WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Cut from 10 mm S355 plate, blank 500 x 200; one piece, no forging
Spike: tip on the centre line, 440 from the socket end of the plate
Shank 36 wide; the 56 wide end (62 long) goes into the socket slots
Arm 48 wide hangs 117 below the shank, raked back 17 deg; barb at its foot
Rope tab under the shank, 25 to 85 from the socket end, round end R30
Shackle hole 13, centred 55 from the socket end and 55 below the axis
Inside corners at the arm and tab: drill 16 and file to R8; no sharp notch
Cut by plasma or chain drill and grinder; dress all edges, break corners 1
Throat between tab and arm: 150 wide at the shank, 128 at 100 below
Fits: plate stands 2.6 proud of the tube top and bottom for the welds
Check: lay on the full-size print; every edge within 1 mm
Stamp WLL 3 kN and the serial number on the shank before painting
